

## Brightening Formula

emed has removed the controversial chemical brightener, hydroquinone, and replaced it with the powerful trio of Kojic Acid, Arbutin and Mulberry. These new ingredients work together to protect the skin and prevent future damage from reactive oxygen cells and sun exposure.

Ingredients: Water/Aqua, Propylene Glycol, Glycerin, Aloe Barbadensis Leaf Extract, Glycolic Acid, Triethanolamine, Kojic Acid, Arbutin, Phenoxyethanol (and) Methylparaben (and) Butylparaben (and) Ethylparaben (and) Propylparaben, Sodium Hydroxide, Morus Alba (Mulberry) Bark Extract
